CORPORATE-RECYCLERS CONCLAVE RANCHI

Date: 17th – 18th January 2025

Venue: Hotel Radisson Blu Ranchi

Organized by:

Manav Sansadhan Vikas Sansthan

About Corporate-Recyclers Conclave 2025

Intelligent utilisation of waste has become an issue of paramount importance for sustainable industrial operation. The industry is being called upon regularly by the regulating authorities to adopt stringent measures for profitable and sustainable utilisation of waste. However, waste utilisation is an enterprise on its own calling for special expertise and innovation. The common ground between these types of industries (manufacturing and waste utilisation) is not wide enough for mutual adoption of industrial practices for the two different purposes. The primary manufacturers, therefore, take recourse to utilising the services of accredited agencies to dispose of the waste generated. This has not been satisfactory since waste is not exploited as a future resource, in almost all cases. The primary manufacturers have to ensure that the **waste is not wasted**. To ensure this, we need to have synergistic collaboration between the primary generators of industry waste and those who convert it into raw materials. Hence, this seminar has been conceived to bring about an alliance between the corporate sector and the recyclers for profitable utilisation of waste.

This Conclave will be held on 18th January 2025. It will be a brainstorming session attended by invited leaders of the Corporate Sectors and the Recyclers. They will address specific immediate challenges faced by industry in the utilisation of waste and the solutions to these challenges. The Conclave will be preceded by a seminar and exhibition by scientists and recyclers, on 17th January. The following industries have confirmed their participation in the Conclave: Tata Steel, AMNS, JSW, JSPL, HINDALCO, Ultratech Cement.

The Conclave and the seminar provide an ideal platform for researchers and recycling industries to showcase their innovations and the manufacturing industries to seek solutions to the challenges of the utilisation of waste.

About Manav Sansadhan Vikas Sansthan

The organisation of the event is steered by The Manav Sansadhan Vikas Sansthan, (MSVS) registered at Jharkhand. MSVS has been actively involved in promoting activities for the preservation of the Environment, among other goals. It was established by a group of students to promote Shiksha (Education), Sanskar (Values) and Swalamban (self-reliance) among the local community, primarily for the economically-down trodden, mainly belonging to ST, SC, OBC and EBC. Enhancing education and environmental conditions in the area would enable the residents to achieve a better quality of life. With this objective in mind, MSVS works in the areas of Education; Environment Upgradation, Livelihood Promotion; Cow-based Agriculture etc.
